New FiberTite Multiport Spill Containment System Now CARB EVR Approved!!

Dear Valued Distributor:

OPW Retail Fueling is proud to announce our new **FibreTite Multiport Spill Containment System** is now CARB EVR approved!

This product introduces the **industry's only fully composite system with tank top to grade containment** to provide **unparalleled protection from water intrusion**.

A few of the many features of this system include:

- ◆ This structural lightweight composite cover provides the industry's only corrosion free Multi-port solution for **unmatched long term water tight performance**
- ◆ **Integrated inspection port system** allows for quick and easy access for sump examinations without having to remove the top cover
- ◆ Versatile product line is made to offer solutions for many construction needs, including field retrofit applications
- ◆ **Composite lift cover and optional levered plumber seal covers** provide customers with multiple water tight solutions for easy access to spill containment
- ◆ Spill container access covers come in API colors to match desired fuel grades
- ◆ Double wall contained spill containers are easily removable and replaceable from grade
- ◆ **Removable flange in spill containment base** provides quick and easy access to Overfill Prevention Valve for inspection
- ◆ **Meets all CARB and Enhanced Vapor Recovery (EVR) requirements**
- ◆ Certified for use on all existing standard gasoline **Phase I Vapor Recovery Certification Phase I EVR Executive Orders**

Our new product brochure is attached. If you have any questions, please contact your District Manager or our Customer Service Department at 1 (800) 422-2525. For more information on our complete product line, please visit our website at www.opwglobal.com. As always, we appreciate your continued support of OPW products.
