OPW Announces New DEF Mis-Filling Prevention Device

Dear Valued Distributor:

The **OPW DEF Mis-Filling Prevention Device** is now available for Truck Stops and Convenience Stores. There are countless vehicles not equipped with MFPD technology, and this device is required when magnetic DEF Nozzles are used. Provide your customer peace of mind by stocking the MFPD in your retail outlet.

Our new MFPD Informational Flyer is attached for more information.

The OPW 21Gu DEF-Filling System

There's Nothing Else Like It!

- **DEF Nozzle – Reliable. Durable. Distinctive.**
The Tried & Proven DEF-Filling Standard in Europe
- **Mis-Filling Prevention Device – Unique. Proven. Insurance.** Affordable Insurance Policy Against the Risks of DEF Mis-filling
- **DEF Swivel/Breakaway – Compact. Smooth. Reconnectable.**
Long-Lasting & User-Friendly
- **DEF Hose – Flexible. Robust. Lightweight.**
Rugged durability with superior flow performance
- **Specially Designed Nozzle Spout**
An Integral Magnetic Interlock-Actuated Valve opens when the spout passes through the OPW Mis-Filling Prevention Device located inside the vehicle DEF fill pipe

Unique Mis-Filling Prevention Device (MFPD)

The heart of the 21Gu DEF Mis-Filling Prevention system

DEF mis-filling can be expensive. The OPW 21Gu MFPD offers the industry's most effective and affordable insurance policy against mis-filling mishaps – actually stopping them before they happen. There is no better way to protect your investment and the environment.

● **Meets ISO 22241 Compatibility Testing for DEF Contamination**

● **Official Standard for ISO 22241-4**

Are You Protected?

A fixed magnetic field within the Mis-Filling Prevention Device actuates a magnetic interface in the spout of the 21Gu nozzle to allow the flow of DEF. Without the Mis-Filling Prevention Device, the DEF nozzle will not flow. Put the nozzle in the wrong tank...say, your diesel tank...no problem, the nozzle will not flow. No other DEF-filling nozzle has this DEF mis-filling protection capability.

WITH the OPW 21Gu nozzle and Mis-Filling Prevention Device (MFPD), your investment is safe.
