

# BlueLine

## INTERNATIONAL FUEL PIPING

### Features & Benefits

**Fewer Joints:** As piping runs are continuous, flexible piping has more than 50% fewer piping joints than rigid fiberglass, fusion and steel piping systems.

**Contained Joints:** As piping runs are continuous, all fitting connections can be made within a containment sump.

**Faster Installation:** BlueLine™ flexible piping is typically five (5) times faster to install than rigid piping systems.

**Crack Resistant:** BlueLine™ is a durable pipe that is resistant to cracking during shipping, installation, ground movement and surface loads.

### Available Sizes

**Single Wall:** 1-1/2", 2", 3" and 4"

**Double Wall:** 1-1/2", 2", 3" and 4"
