

## Line Leak Detection

### Leak Detection

Article Number	Description	Remark	Pack Size
KP 315AU-G	Alarm unit for leak detection system	Monitors up to 6 leak detection units. Compatible with all major tank gauging systems.	1
KP 315LD-02	Leak detection unit	ATEX and EN13160 approved leak detection unit with one connection point, including 2 m tubing	1
KP 315-2M	Signal cable, 2 m	For connection of leak detection unit to alarm unit	1
KP 315-25M	Signal cable, 25 m	For connection of leak detection unit to alarm unit	1
KP 315J	EX rated cable connector	For signal cable junctions	1
KP 315MF	Leak detection manifold, 4 connection points.	Manifold for the leak detection unit, including 10 m tubing, for monitoring of up to 5 pipe lines. For monitoring of more pipes, use two manifolds in series	1
KP 315LD-02-SET		Includes KP 315LD-02, 315-2M, 315MF and KP 315J	1
