  Administrator Software (AFC)  
 Other: Specify \_\_\_\_\_

**If YES, please provide the following information:**

Fuel Site Controller Serial Number\* \_\_\_\_\_

Fuel Site Controller Software Version Number\* \_\_\_\_\_

\* For K800 systems, the product serial number and software version are found by selecting "System Information" from the Reports menu. For System2, the serial number is located on the bottom of the Fuel Site Controller. The software version is found by using the "Show System" command.

I'm upgrading from a DOS version of Phoenix  YES  NO

I have upgraded from a previous version of Phoenix  YES  NO

Upon receiving this form, OPW Fuel Management Systems will call the customer contact at the phone number provided above to schedule the startup. **NOTE:** Your K800 or System2 must be running and configured so that Phoenix can connect to it. At least one card should be programmed so that transactions can be generated.
