Revised 03/17/2025

PK10-FLMP-XXX

Includes a watertight platform that can accommodate two 5-gallon spill buckets, a 40-inch multiport cover, individual port covers, frame and skirt.

Features & Benefits:

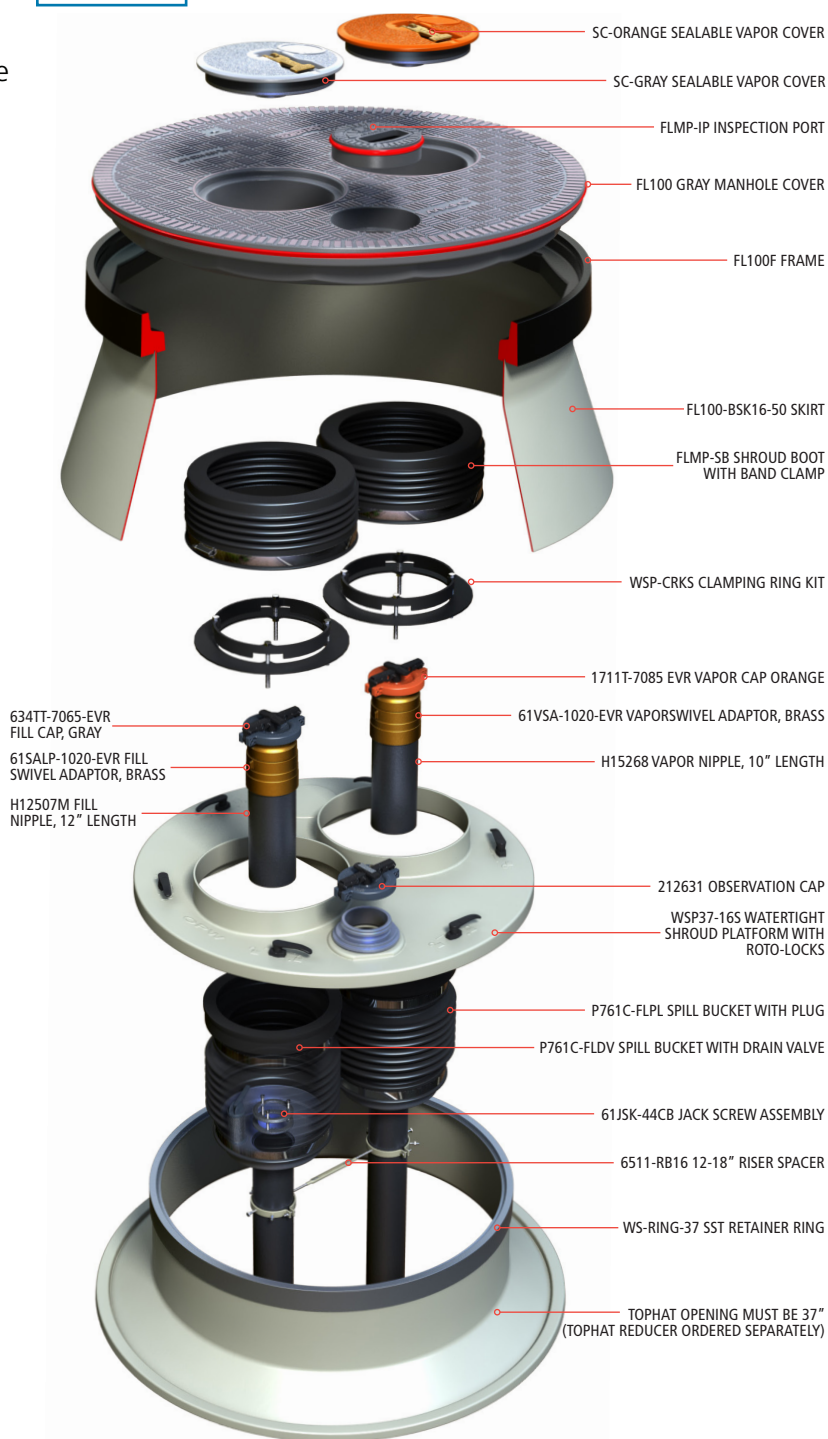

- Phase I EVR, CARB-approved
- Sealed, watertight manhole covers
- Strong monolithic structure meeting H20/HS20 load requirements
- Will not corrode
- Compatible with biofuels
- Easy and safe manual cover removal
- Optional lifting aid (Model FL7A) reduces risk of back and hand injuries
- Treads feature a specialized anti-slip material
- Four UV-stable color options (gray/gray, red/orange, white/orange, blue/orange)
- No drill holes or bolts required
- Product identification tags available
- E85 kits available
- Plugged fill bucket kits available

Ordering specifications:

Part #	Description
