OPW Elimination of Overlength Fees

Dear Valued Distributor:

Effective immediately, OPW will eliminate overlength fees on all overfill valves, drop tubes and slotted PVC pipe. To help offset these continued charges, OPW will implement a small price increase on these products which will go into effect on February 3, 2022. Below you'll find notable policy changes, the new list prices, as well as a link to use to download the updated full Retail Fueling Price List.

Notable Changes:

1. Free freight on net orders over \$7,500.
2. Must order a minimum of (4) 61T Drop Tubes per PO, and you may combine various models.
3. Must order a minimum of (4) 61SPVC slotted pipe, and you may combine various models.
4. As of February 3rd, all backlog orders will not be charged an overlength fee; and there will be no change in your net price.
5. Overlength fees were never charged on Island Forms so no Price List change or freight adjustments will need to be applied.
