OPW Obsolete DSW & DSF Style Sumps

Dear Valued Distributor:

As we continue to Define What's Next, it's important that we continue to properly rationalize our offerings so that we can always keep our focus on the latest and most beneficial products our partners and end-users require. This maintenance helps us keep our operations efficient, while helping to keep your costs and lead times down. We seek to continue providing the industry's best systems for every application, even when removing long-time offerings.

With the release and success of the DSE, we have been able to provide high quality fiberglass under-dispenser containment at a price that has tempted many to switch from the poly-style construction. The similarities between the new DSE and our long-running DSW and DSF line of UDCs cannot be ignored, so we will be making changes to our offerings.

Starting February 1, 2023 OPW will no longer be making the following versions of the DSW and DSF style sumps.

DSW	DSF	Recommended Alternate UDC
DSW-1836C	DSF-1836C	DSE-1836
DSW-1836CL	DSF-1836CL	
DSW-1543	DSF-1543	DSE-1543
DSW-1543C	DSF-1543C	
DSW-1117F	DSF-1117F	DS-1117F
DSW-1229	DSF-1229	DS-1229
DSW-1120	DSF-1120	DS-1120
DSW-1242		DS-1242

Similarly, we are reducing the number of options for 61T straight drop tubes. As systems age and are replaced, we've seen a change in the breadth of options needed these days. We will continue to offer equipment for all applications (standard, stainless, and coax), with a reduction in length options. Please find the options that are no longer available, as well as the options that are still available shown below.

Part Number	Stock Available (while supplies last)	Length
61T-7268	98	12
61T-7468	52	17
61TC-7270	9	13
61TC-7272	63	16
61T-SS-0412	0	12
61T-SS-0417	3	17
Still Offering	Length	
61T-7368	15	
61T-DEF-0412	12	
61TCP-3800	13	

We are very excited to jump into a New Year full of new projects and game-changing products. Keep your eyes peeled this year for more exciting new offerings. If you have any questions about UDC containment or Straight Drop Tubes, please reach out to your District Manager.

As always, we appreciate your support. If you would like more information on our complete product line, please visit our website at www.opwglobal.com.

Best Regards,

Daniel Boyle
