## OPW Pre-Assembled Island Forms & Swage Machine Information

### Dear Valued Distributor:

In the spirit of constant improvement, OPW is regularly searching for ways to improve the products we offer. From main system components to accessories, we seek to improve the installation process and experience for the contractor, while giving end-users top tier products that will serve their needs for years to come. Recently, we sent out a notification of our new and improved island forms. The announcement outlined the improvements in tooling, quality, consistency, capacity, and our ability to ship completely assembled island forms to the site - ready for installation. Shipping fully assembled island forms was very well received by distribution and inspired us to improve this offering further. We listened to your feedback, and we are happy to announce this product improvement.

To maximize the space available within the island, as well as improve rigidity, we have redeveloped our island form design to make installation even simpler. Corner bracketry has been added to firm up island form shape, while leaving the interior free for traditional or loop sump mounting options.

The pre-assembled Island Forms are available for any island, up to and including a width of 4 feet and a length of 5 feet. To order a pre-assembled Island Form:

- Add "-ASSY" to the part number
  - Max width 4 foot
  - Max length 5 foot
- Add \$100 to the List Price

Our new Island Form is a great compliment to the quick, no hassle installation provided by the Loop Sump Mounting kit (part numbers for the applicable island form widths are shown below). One kit is required per Island Form. Pre-assembled islands will ship as shown below.

6000-SMK3	Island Form Loop Sump Mount Kit, 3 Ft.	\$371.54
6000-SMK4	Island Form Loop Sump Mount Kit, 4 Ft.	\$384.46

OPW Retail Fueling has recently switched from offering the barrel-type Swage Machine (CME-0110 or -0110R) to the Enerpac Swage Machine (CME-200). We have released a new video to introduce you to our new Swage Machine, as well as how to assemble and operate it. Just go to YouTube and search for OPW, Enerpac, Swage or simply click on [this link](#).

As always, we appreciate your continued support of OPW products. If you have any questions, feel free to contact your OPW District Manager or our Customer Service Department at 1-800-422-2525. If you would like more information about our complete product line, please visit our website at [www.opwretailfueling.com](http://www.opwretailfueling.com)

Best regards,

**Daniel Boyle**
