OPW TSE Tank Sump

Dear Valued Distributors:

You asked for a companion to the DSE dispenser sump, now you have it! OPW Retail Fueling is pleased to announce the creation and availability of its new TSE Tank Sump. The TSE sump is the latest model in OPW's E-Series family of fiberglass containment sumps, all of which are constructed via the Sheet Molded Compound or SMC manufacturing process that produces products of premium quality and extraordinary value with short delivery lead times. This enables the TSE sump to be a cost-effective and time-efficient solution for fuel retailers who are looking to optimize performance in their fuel-handling and containment systems.

OPW is the first manufacturer in the retail-fueling industry to use SMC technology to manufacture its fiberglass sumps. This advanced process allows each part to be perfect every time without the inconsistencies of typical spray-up fiberglass sumps. The result is uniform wall thickness and smooth sides both inside and out which allows entry fittings to bond more effectively and reliably, creating a watertight seal to help prevent leaks and other maintenance needs while extending the service life of the sump.

The TSE tank sumps are available with collar-ring or solid-bottom mounting options. The tank sump features two cover styles, a compression seal lid, or a watertight lid that seals on a stainless-steel ring with locking L-handles.

Features & Benefits

- UL and ULc listed along with Florida DEP approval
- Consistent thickness and smooth surfaces for a watertight seal
- Value-priced to compete against any fiberglass sumps on the market
- Built with legendary OPW quality, service, support and value

Part Number	Sump Mount Design	Cover Style	List Price
TSE-4233CR	Collar Ring	Compression	\$1,992.46
TSE-4233SB	Solid Bottom	Compression	\$1,992.46
TSE-4233CR-WT	Collar Ring	Locking L Handles	\$2,719.21
TSE-4233SB-WT	Solid Bottom	Locking L Handles	\$2,719.21

*For Compression Style TSE Lids, (1) tube of SL-1100 is recommended for installation of the seal.

Until now, most sump manufacturers could provide quality, or speed, or value, but never all three. The TSE Tank Sump, as well as the entire E-Series product family, debunks this myth by offering best-in-class quality, faster lead times, and affordability without sacrificing value.

If you have any questions, please reach out to your District Manager or our Customer Service Department at 1-800-422-2525. Keep an eye out for more exciting announcements this year as we continue to Define What's Next in 2023!

If you would like more information on our complete product line, please visit our website at www.opwglobal.com. As always, we appreciate your continued support.

Regards,

Elliott Gladden
