## OPW U-Shaped Bollards

### Dear Valued Distributor:

Over the past couple of years, the global supply chain has had numerous bumps in the road. OPW has been doing our best to minimize interruptions to our partners' operations while continuing to improve our core products and systems. This also means that we have had to recognize areas where efficiencies could not be found. In order to maximize lead times on other products, OPW will be discontinuing our line of U-Shaped bollards, both in Mild and Stainless Steel, for all sizes. Effective immediately, we will no longer offer the various styles or sizes of double radius pipe guards. Current inventory is limited and will be sold on a first come first served basis. Once we've exhausted our supply, these products will be obsolete. We seek to provide the industry's best and most innovative products, and we must focus our attention in order to provide the quality and delivery times our distributors expect. Thank you for your understanding.
