

SURF'S UP.

With the newly redesigned Tandem Surfline, throughput and profits will be up too. Now faster and more efficient than ever before, the most innovative automatic friction wash just got better.

A second side brush helps get customers through quicker, and our wall-mount system and Ultimate Cover package is now standard. Pumps and solution controls are off-board. And with all non-corrosive materials and optional Ultimate Lighting packages, the Tandem Surfline will always look as good as it cleans.

DRIVE | CLEAN.

PDQ VEHICLE WASH SYSTEMS

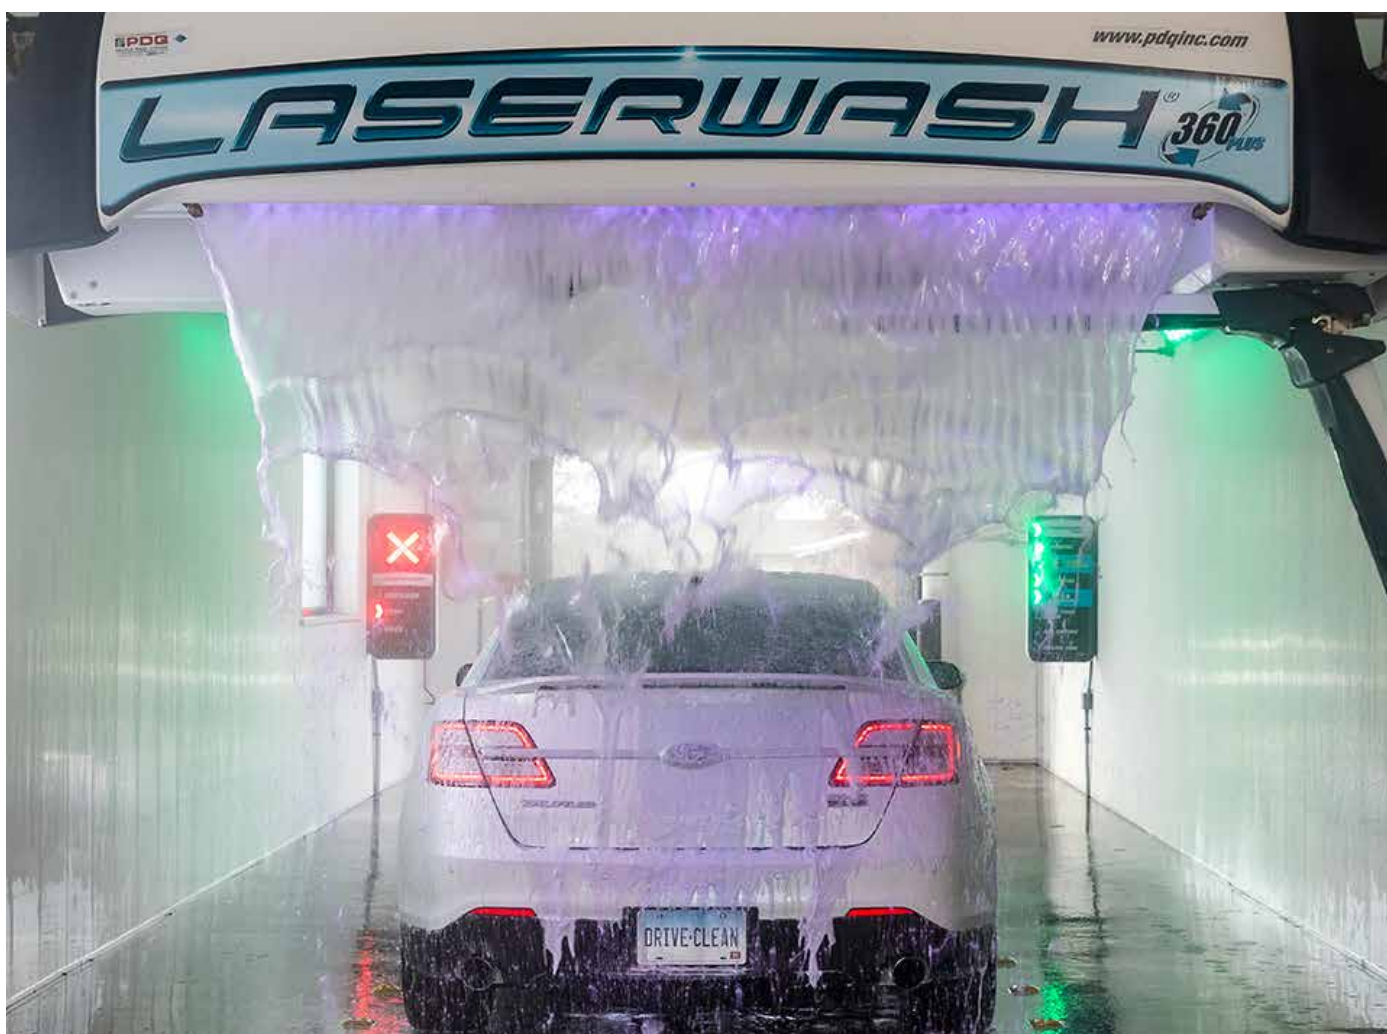

Helping to Make Car Wash Operators Successful Since 1984

For the past 30 years, PDQ has provided the car wash industry with cutting-edge technological advances in car wash equipment and car wash systems, including the first contouring arch and the Virtual Treadle.

PDQ has always been recognized as the world-leading manufacturer of touch-free car wash equipment with one of the most powerful names in the industry – LaserWash®.

That same energy and passion that we bring to the touch-free industry is being unleashed onto the friction market with our ProTouch® line of in-bay automatic brush equipment.

LaserWash® Series

LaserWash® 360 Plus

◆ The newest LaserWash® in-bay automatic car wash raises the standard for touchfree car wash equipment. With Revenue Enhancement and Total Cost of Ownership improvements being the main focus, this vehicle wash system delivers the industry's best Return on Investment. Smart 360™ Technology enables the car wash system to be responsive to the dynamic conditions in the wash bay, increasing up-time and optimizing the wash process.

Substantially faster wash speeds lead to increases in vehicle throughput and shorter lines that will make your customers happy. Simplified machine design and lower energy and utility usages reduce operating costs leading to a more profitable car wash operation.

LaserWash® AutoXpress

◆ With the introduction of our new LaserWash® AutoXpress, PDQ offers an affordable automatic car wash designed exclusively for the auto dealer market incorporating the most advanced touch-free technology. The LaserWash® AutoXpress provides you and your customers with quick, exceptional cleaning that is unsurpassed by any other touch-free wash in the auto dealer industry.

Touch-free Car Wash Equipment

With more than 10,000 LaserWashes shipped worldwide, PDQ Manufacturing, Inc., takes great pride in being the leader in the touch-free in-bay automatic vehicle wash industry. We are dedicated to providing wash operators with the most innovative equipment that exemplifies our tradition of **Performance, Dependability and Quality.**

Friction Car Wash Equipment

The PDQ ProTouch Series just became the most formidable force in the friction in-bay automatic car wash industry, by offering two exceptional models: The ProTouch Tandem and Tandem Surfline.

ProTouch® Tandem

ProTouch® Tandem. This superior wash system **incorporates both high pressure and friction**, giving operators who prefer the "clean" produced by friction systems a superior choice. The ProTouch Tandem's full-body detergent coverage and **simplified two brush engineering** provides consistent cleaning performance with minimal brush contact. The ProTouch Tandem **touches the vehicle up to 70%** less than five brush car wash systems on the market today.

Features

- ◆ Open Bay design
- ◆ Remote Monitoring and Configuration
- ◆ Exceptional Cleaning
- ◆ Low Maintenance Costs
- ◆ Energy-Efficient Design
- ◆ Low Water and Chemical Consumption
- ◆ Local Distributor Support
- ◆ 24/7 PDQ Technical Service Support
- ◆ Custom Friendly Virtual Treadle

LaserWash® 360 Plus

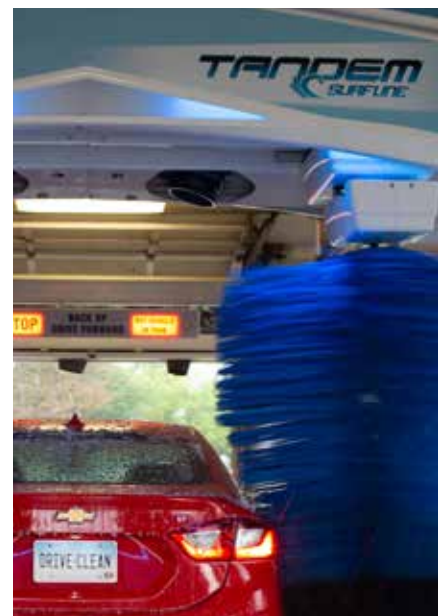

ProTouch® Tandem

Tandem® Surfline

PDQ has taken our Tandem product to a new level, changing the friction in-bay automatic wash industry with a soft-touch machine like no other. The Tandem Surfline provides your customers with an exceptional wash experience incorporating an overhead design that creates a wide-open, easy-to-use wash bay. This innovative design is safe and inviting for your customers while offering all the revenue-generating features that will keep them coming back again and again.

Features

- ◆ Increased throughput with a fast, efficient cleaning process
- ◆ Open-Bay Configuration – inviting and safe for your customers
- ◆ Remote Monitoring and Configuration
- ◆ Low Water and Chemical Consumption
- ◆ Low Maintenance
- ◆ Aircraft-Grade Anodized Aluminum Bridge and Main Rails
- ◆ Non-corrosive materials used – stainless and aluminum
- ◆ New low-/high-pressure pump design improves functionality and lowers maintenance costs
- ◆ 24/7 PDQ Technical Service Support

Tandem Surfline

LaserGlow and ProGlow Illumination Effect System

Get Your Wash Noticed... Not only will the LaserGlow System assist in loading, it can also be configured to work for you 24/7/365 by illuminating your wash bay day and night whether there is a vehicle in your bay or not. The system can be programmed to display multiple color combinations of flashing patterns, or constant colored illumination that matches your brand image. A glow from your wash bay can be a highly effective marketing tool to draw more attention to your wash site, encouraging consumers to take notice and keep your existing customers coming back again and again.

OPW Listing and Certifications

Every year we introduce more safety and environmental-protection innovations to the industry than any other petroleum equipment manufacturer. Leading-edge innovations such as the new 1-2200™ single-wall replaceable spill container, 68EZR™ reconnectable breakaway, Fibrelite covers and tank sumps,

decommissioning hanging hardware kits, the SiteSentinel® Integra 100™ automated tank gauge systems all serve to illustrate how OPW is **Leading the Way** in helping to protect the well-being of people and the environment – today, tomorrow and into the future. That’s the nature of OPW.

OPW products may hold one or more listings or certifications with the following agencies:

CARB
California Air Resources Board

kiwa

OPW is a member of the following associations:

ISO 9001:
2000 Registered Company
