**Dual Layer Access Pipe**

A 4" diameter corrugated flexible conduit is used to provide access to and permit the future replacement of the Flex piping if desired. This corrugated pipe is strong enough to withstand H-20 loading requirements when properly buried and thick enough to minimize damage from shipping and jobsite handling. Access pipe can accommodate the 3/4", 1", 1-1/2", 2" and 3" FlexWorks supply pipe.

**Features & Benefits:**
- Crush and puncture-resistant
- Semi-smooth liner facilitates ease of installation
- Saves you time and money
- No buried joints
