The New OPWlite GRP Composite Manhole Cover

Lightweight | Maintenance-Free | Cost-Effective

To date, the only barrier to installing GRP composite access covers has been the larger initial outlay when compared to traditional products, but with the new OPWlite cover, even the tightest budget can stretch to a durable composite cover.

The Simple Solution

GRP composite access covers are a durable, maintenance-free and lightweight option that will not rust, crumble or deteriorate over time – and they are corrosion-resistant making them an ideal solution on sites with corrosive liquids like fuel.

In addition, they are specifically designed for safe lifting, incorporating a lifting point for an ergonomic handle which will allow them to be removed easily and safely without the risk of operatives suffering back injury and crushed fingers or toes. They also have no re-sale value in the scrap market meaning they are very unlikely to be stolen.

Local Service. Globally

Manufacturing facilities on three continents and a worldwide network of employees and distributors, ensures hands-on support, local service and solutions, around the globe. OPWlite covers are manufactured in Europe under the watchful eye of the OPW technical team, ensuring consistent quality.

Key Benefits

- Lightweight
- Ergonomic, single person operation with OPW's lifting handle
- Monolithic one-piece structure eliminates delaminating
- Watertight, sealed and non-bolted
- Available with a central dip port
- Multi-faceted frame prevents spin out
- EN124 C250 load rating
- UV resistant
- Corrosion-resistant
- No scrap/resale value

Item Code	Description
OPW-30	760mm square cover with frame. C250 load rating
OPW-30-SET	OPW-30 with 300mm deep blue skirt
OPW-30-CD	760mm square cover with central dip port and frame. C250 load rating
OPW-30-CD-SET	OPW-30-CD with 300mm deep blue skirt
OPW-30S	300mm deep blue skirt fits OPW-30 models
OPW-35	900mm square cover with frame. C250 load rating
OPW-35-SET	OPW-35 with 300mm deep blue skirt
OPW-35-CD	900mm square cover with central dip port and frame. C250 load rating
OPW-35-CD-SET	OPW-35-CD with 300mm deep blue skirt
OPW-35S	300mm deep blue skirt fits OPW-35 models
OPW-36	900mm dia. cover with frame. C250 load rating
OPW-36-SET	OPW-36 with 300mm deep blue skirt
OPW-36-CD	900mm dia. cover with central dip port and frame. C250 load rating
OPW-36-CD-SET	OPW-36-CD with 300mm deep blue skirt
OPW-36S	300mm deep blue skirt fits OPW-36 models
OPW-41	1020mm dia. cover with frame. C250 load rating
OPW-41-SET	OPW-41 with 300mm deep blue skirt
OPW-41-CD	1020mm dia. cover with central dip port cover and frame. C250 load rating
OPW-41-CD-SET	OPW-41-CD with 300mm deep blue skirt
OPW-41S	300mm deep blue skirt fits OPW-41 models
FL7A	Ergonomic lifting handle
