

Wide-Access Fiberglass Dispenser Sumps

Features & Benefits:

- ◆ **Conduitless Design** – the fiberglass base and metal cap and frame are designed to directly conduit into the dispenser along the side of the sump to avoid requiring additional entry boot penetrations
- ◆ **Multi-Product Flexible** – the wide sump surface area is designed to accommodate up to 4 product lines into the sump
- ◆ **Structural Integrity** – engineered with thick side walls to withstand backfill and high water table forces. Precise glass and resin metering throughout the molding process ensures material consistency and maximizes the strength-to-weight ratio
- ◆ **Full-Perimeter Liquid Collection Channel** – facilitates quick leak detection and allows flexibility in locating leak sensors
- ◆ **Smooth Sealing Surfaces For Leak-Tight Sump Entry Fittings** – our fully enclosed molding manufacturing method produces a uniform wall thickness while eliminating air entrapment. The result is a flat, smooth finish, both inside and out, which provides leak-tight pipe entries
- ◆ **Convenient Shipping and Storage** – sump boxes are nestable. Two sizes accept multiple frames to accommodate all common dispensers
- ◆ **Full-Access Working Area** – frame is attached after plumbing is complete
- ◆ **Mounting Flange** – sump rests on island form crossbars for support during installation

Ordering Specifications - Wide-Access Fiberglass Dispenser Sumps

Sump Model #	Dimensions								Weight with Top		Box Part #	Top Assembly Part #
