

OPW brand nozzles... "The most trusted handshake in the fueling industry."

OPW is pleased to introduce our CNG **Pistol Grip Nozzle**, enabling you to provide an intuitive and familiar lever action nozzle to your Alternative Fuel Customers. This is the first one-handed Type-1 CNG nozzle designed to simplify the CNG fueling process while maximizing user friendly features. The only CNG **Pistol Grip Nozzle** manufactured in the USA certified to all relevant NGV and ISO standards makes this is an excellent nozzle for retail or fleet CNG sites.

- ◆ True "one-handed" operation with a familiar lever action
- ◆ Spout diameter and angle optimized for the best access to difficult fuel points
- ◆ Built in 360° inlet swivel minimizes hose binding
- ◆ Compatible with all NGV-1 receptacles
- ◆ Hand guard configurations available for most OEM dispenser mounting options
- ◆ Available as a replacement nozzle or complete hose kit with breakaway
