Are You Protected?

A fixed magnetic field within the Mis-Filling Prevention Device actuates a magnetic interface in the spout of the 21Gu nozzle to allow the flow of DEF. Without the Mis-Filling Prevention Device, the DEF nozzle will not flow. Put the nozzle in the wrong tank – say, your diesel tank – no problem, the nozzle will not flow. No other DEF-filling nozzle has this DEF mis-filling protection capability.

OPW 21Gu™ DEF Nozzle

The Industry’s Most Comprehensive DEF-Filling Solution

- End-to-end dispensing hardware solution for reliable, efficient DEF-filling
- Industry standard DEF-filling solution in Europe
- Unique Mis-Filling Prevention Device (MFPD) provides unparalleled filling assurance and peace of mind
- Affordable mis-filling prevention insurance designed to protect your investment against potential mis-filling mishaps

Features – Benefits

- Automatic Shutoff feature shuts off nozzle when the tank is full
- Mis-filling prevention device eliminates the risk of accidental DEF filling or environmental contamination.
- Spout with magnetic interface prevents mis-filling mishaps.
- Durable streamlined nozzle design for easy, comfortable nozzle handling makes it easy to differentiate DEF products.
- Total end-to-end affordable solution is a convenient and complete system from the Industry Leader.
- Comes with Integral Contaminant-Prevention Filter; this replaceable, stainless steel, 40-mesh filter provides an added level of protection against DEF contaminants.
- Outfitted in that familiar and unmistakable “DEF Blue” with slogan badge for instant product identification.
- Maximum pressure and flow rate
  - 40 psi (2.75 bar) maximum pressure.
  - 10 gpm (37.8 lpm) maximum flow rate

MIS-FILLING PREVENTION

WITH the OPW 21Gu nozzle and Mis-Filling Prevention Device (MFPD), your investment is safe.

Other DEF Nozzle

WITHOUT the OPW 21Gu nozzle and Mis-Filling Prevention Device (MFPD), your investment is at risk.

Materials

Body: Special resin coated aluminum
Lever & Lever Guard: Duratuff®
Seals: Viton®
Inlet Size: M34 (adaptor required for each nozzle)
Weight: 2.41 lbs. each, 36 lbs./case of 15
1.1 kg each, 16.5 kg/case of 15

Meets ISO 22241 Compatibility Testing for DEF Contamination
