

## API Lock Assembly

Let Civacon help you securely protect your products from unwanted tampering.

The new API Lock Assembly is designed to restrict unauthorized personnel from unloading valuable products from your trailer compartments. The addition of the air operated lock to the Civacon 891 API adaptor will ensure protection from fuel theft.

### Features

- Air operated lock feature on the 891 API adaptor
- Remotely air operated lock will ensure fuel is not unloaded by unauthorized individuals
- Manual bypass will unlock the API if air operation becomes unavailable
- High Flow Adaptor with reduced retention
- Stainless Steel Internals for strength and durability
- Precision manufacturing for long lasting dependable operation
- Conforms to API 1004 and EN13083
- Compatible with diesel, biodiesel, gasoline, ethanol and methanol
