The NEW 14 Series

**OPW 14E/14BP Enhanced Conventional (ECO) Gasoline Nozzles**

The OPW 14E and 14BP enhanced conventional gasoline nozzles are part of the new OPW 14 Series cleaner fueling experience nozzles, featuring innovative patented and patent-pending free-draining spout technology that drains fuel rather than retains it. Other dripless technologies capture fuel in the spout that is allowed to evaporate and increase VOC emissions. With OPW, drain it don’t retain it.

The new OPW 14E and 14BP dripless nozzle spout technology is designed to keep gasoline from dripping on your customers’ hands, clothing, vehicles and the ground to provide a cleaner, greener, and more satisfying customer experience.

The CARB ECO OPW 14E utilizes a special interlock system inside the bellows to activate the flow of fuel. The OPW 14BP is a standard fueling nozzle without the interlock device.

**Dripless Nozzle Technology**

*SPECIALLY ENGINEERED PATENTED FREE-DRAINING SPOUT TECHNOLOGY*

**VEHICLE FILL PIPE**

*SMOOTH INNER SPOUT BORE. NO DAMS, GROOVES OR RESERVOIRS TO RETAIN FUEL*

**FEATURES & BENEFITS**

**Safe for Use**

- True Dripless Technology* – Patented and Patent-Pending Free-draining spout, no dams or hidden reservoirs to catch liquid. Designed to exceed CARB dripless requirements.
- Rugged Durability – designed to meet the rigorous demands of high volume sites.
- FlowLock™ allows nozzle to shut-off when falling out of a vehicle, and is tipped up, limiting spillage and unsafe conditions.
- Enhanced Drip Control (14E Models only) - specially designed interlock prevents fuel from flowing unless the spout is fully inserted in the vehicle fill pipe and the actuator is engaged. This is a CARB requirement.
- Durable and Long-Lasting Design
  - Cycle tested and proven to last longer than 1 million cycles.
- Durable lever guard that won’t scratch your customers’ vehicles – made from Duratuff®.

**Cleaner Fueling Experience for Customers**

- Easy to use – utilizing Accu-Stop® to-the-penny Flow Control Technology.
- Attractive 2-Piece NEWGARD™ Hand Insulator is the most comfortable nozzle in the industry to use.
- Convenient – one-finger hold-open clip that is easy to set the flow rate.

**Design working pressure**

- 50 psi (3.45 bar) maximum pressure.

**LISTINGS & CERTIFICATIONS**

*US PATENTS 7,134,580 AND 9,126,820. OTHER PATENTS-PENDING*
